Welcome in. Take what helps; leave the rest.

This is a free printable pack for moving gently at any size, at any energy level, on any given day. No apps, no signups, no streaks to lose. Print the page you need, or all of them, and let the rest wait.

> Nothing here knows your weight, your history, or your limits. Pick the sheet that matches today's energy — not the one you wish you had. Some days that's a stretch card. Some days it's the permission slip. Both count.

What's in the pack

- **Five-Minute Wake-Up Stretch** — one card, six easy moves, done before the coffee cools.
- **Chair Exercises** — two pages of seated movement for low-energy days.
- **Walk-and-Count Mileage Log** — walk, count something, jot it down.
- **Balance Practice** — everyday steadiness, near a counter, at your own pace.
- **Water-Sip Tracker** — tick sips, not perfection.
- **Rest-Day Permission Slip** — the official-looking excuse to not move, signed by you.
- **Movement Bingo** — a monthly card of tiny wins. Any five in a row counts.

Printing tips

- Print at 100% / "Actual size" on letter paper. It scales fine onto A4 too.
- You keep this file; it works offline forever. Nothing is collected, nothing is tracked.

Water-Sip Tracker

Eight cups a day is a rumor, not a rule. Small sips, tea, soup, juice — it all counts. Tick what you actually had; leave what you didn't.

Hydration edition of the reminder: this tracker is education, not exercise prescription. Fluid amounts that suit you may differ — some people (watching certain medicines, hearts, or kidneys) are asked to limit fluids. Use the amount your doctor or physical therapist recommends, and treat this sheet as a gentle tally, not a quota.

How it works: each row is one day. Each cup is a real cup, mug, or bottle — your cup, your size. Shade or tick as you go. "Half a cup twice" is just as accurate.

Day 1	☐ ☐ ☐ ☐ ☐ ☐ ☐ ☐	☐ mostly clear drinks?
Day 2	☐ ☐ ☐ ☐ ☐ ☐ ☐ ☐	☐ mostly clear drinks?
Day 3	☐ ☐ ☐ ☐ ☐ ☐ ☐ ☐	☐ mostly clear drinks?
Day 4	☐ ☐ ☐ ☐ ☐ ☐ ☐ ☐	☐ mostly clear drinks?
Day 5	☐ ☐ ☐ ☐ ☐ ☐ ☐ ☐	☐ mostly clear drinks?
Day 6	☐ ☐ ☐ ☐ ☐ ☐ ☐ ☐	☐ mostly clear drinks?
Day 7	☐ ☐ ☐ ☐ ☐ ☐ ☐ ☐	☐ mostly clear drinks?

> The row that matters most is the one you noticed at all. On a three-cup day, the tracker did its job: it told you a true thing kindly.
